**Subject:** Sampling Schedule for Work Plan under the AOC

Good Afternoon Steve,

I wanted to follow-up with you on our discussion Monday regarding the wet weather sampling event that was conducted last week as part of the Work Plan approved as part of the AOC. As we discussed, you were unable to provide the 3 day advance notice, as per the AOC, to U.S. EPA to allow split samples to be collected. At this time, U.S. EPA does not anticipate requiring this wet weather sampling event to be. However should split samples results from future sampling events be too disparate and/or inconsistent with the wet weather sampling event, an additional sampling event may be requested by U.S. EPA.

Thank you again for assistance and please let me know if you have any questions or concerns.

Thank you,

JJ Justice
